"SILHOUETTE ENHANCED  
THE CONTOURS OF MY FACE  
AND PUT A SMILE UPON IT"

## SKIN AGEING

Changes occur with time in the shape of the face and appearance, due to age-related alterations in facial skin strength and elasticity together with fat, bone and cartilage loss.

### THE TRIANGLE OF YOUTH

#### From 25 to 40 ▶

The triangle of youth refers to the 3 unique features of a young looking face:

High cheekbones,  
full cheek volume and  
a well-defined jawline.

#### ▶ Age : +55

In a mature adult, due to the ageing process (collagen loss, fat pad loss or migration...), the triangle is reversed resulting in flattened cheeks, more noticeable nasolabial folds and a sagging jaw line.

Restoring the "triangle of youth" without having to resort to surgery, is now possible by repositioning, providing volume, and stimulating lost collagen production thanks to the innovative technology of the **Silhouette Soft®** treatment.

# SILHOUETTE SOFT® , THE XXI<sup>ST</sup> CENTURY LIFT WITHOUT SURGERY

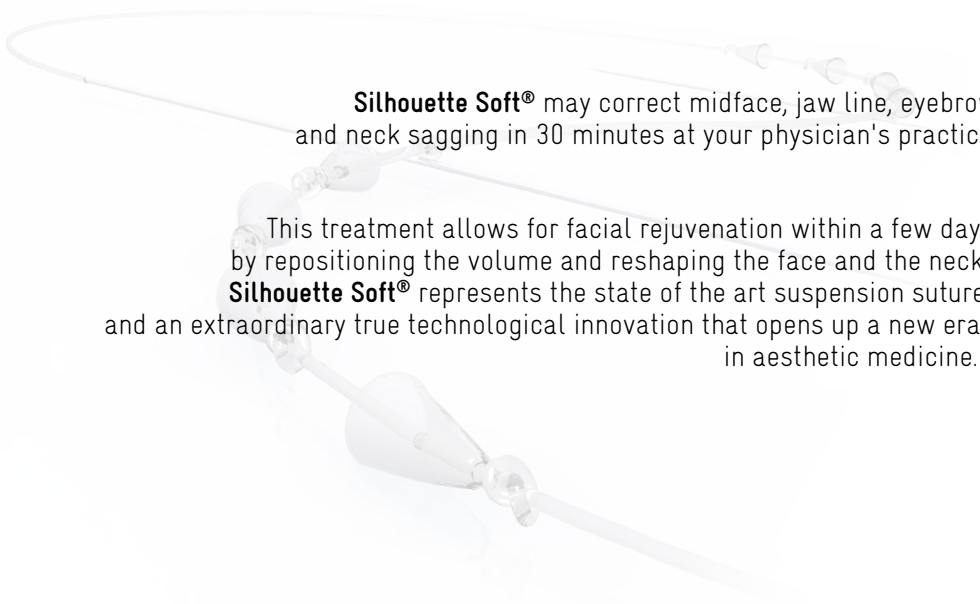

**Silhouette Soft®** offers you significant advantages:  
A minimally invasive treatment with minimal downtime and recovery.  
This technique leaves no scars and can be successfully used for all areas  
of the face and neck resulting in a fresher and younger look.

**Silhouette Soft®** may correct midface, jaw line, eyebrow  
and neck sagging in 30 minutes at your physician's practice.

This treatment allows for facial rejuvenation within a few days  
by repositioning the volume and reshaping the face and the neck.

**Silhouette Soft®** represents the state of the art suspension suture  
and an extraordinary true technological innovation that opens up a new era  
in aesthetic medicine.

## WHAT ABOUT THE PROCESS ?

The procedure is over in 30 minutes and you will be able to get back to your full social life with minimal recovery time.

**Silhouette Soft®** is a tailor-made treatment, so it will be adapted to your needs and preferences and can be complemented with other aesthetic treatments.

The procedure will only be carried out by a physician who has been specifically trained in **Silhouette Soft®**.
