Three customisable depths (0.8 – 3.5mm) and energy (0.5 – 4 J) in a single insertion.

What You Can Expect

What Will a Matrix Pro Treatment Feel Like?

Some patients report a warm, prickly sensation as energy enters their skin. Following treatment, a red flush resembling a minor sunburn and small skin crusts are common. Topical numbing creams can be used to increase comfort. Most patients can resume normal activities immediately following treatment.

When Can I Expect to See Results?

Visible results can be seen in as little as one treatment, but for best results, expect 2-3 treatments, 4-8 weeks apart. The total number of sessions depends on your skin concern and condition.

Are Matrix Pro Treatments Right for Me?

The best part of RF microneedling is that it's designed for a wide range of patient needs across their skin ageing journey. The Matrix Pro applicator can treat virtually all skin types and a broad range of skin conditions. If you are looking for a treatment for overall skin texture and appearance,^{2,3} Matrix Pro treatments can be made for you!
